

# C++ full Roadmap

## Syllabus

1.) Introduction to C++  
History  
feature  
Applications

2.) Basic Concepts  
Structure of C++ program  
Data Type & variables  
Operators

3.) Control flow  
Conditional statement (if, else, switch)  
Loops (for, while, do while)

(4.) Input & output

cin, cout

Basic Input/output operators

(5.) Functions
